- Japanese

PROFILE INFO

I'm a fairly newly educated Frontend-developer with a passion for user-friendly and functional design. I'm used to working in diverse teams to accomplish a common goal. I'm eager to learn and I'm not afraid to ask questions of I need to.

WORK EXPERIENCE

Workshop Technician   **2012 - 2015**
Siemens Energy AS

Responsible for calibration, testing and FAT of differential Pressure sensors for the subsea industry. I was also one of the Union Representatives.

Electrician / Technician   **2007 - 2011**
Baatservice Contracting AS

I worked on several offshore-related projects (oil-rigs mostly) in varying capacities, but most of the time I was a headman for a group of electricians. I also served as the local Union Representative of the company.

MY SKILLS & EXPERTISE

HTML & CSS/SASS   Javascript/Typescript

UX/UI Design   React/Next.js

Prompt Engineering   git/github

I've also taken/in the process of taking many courses at Udemy.com, with a focus on the following:
- Advanced CSS/SS
- A few Nex.js courses
- Prompt Engineering
- Typescript
- Docker & Kubernetes
- Three.js & GSAP

MY INTERESTS

Strength training, strategy games, roleplaying games, books, travel, beer brewing, movies and stand-up comedy shows.
